Why is it that some people get this and others don't? Are they stupid or are they crminal? I've spent another 3 hours on the phone with Amazon and filling out case violations.

Sarah Brown This is one of the stores (EB Store) claiming to sell my name-brand products. This store and one other have removed the listings. Two others haven't. I have now made claims with the fraud department of Amazon and they are investigating.

Sarah Brown Check out this moron. She has co-opted our ASIN. So, the listing reads Burdock Root by Maison Terre. Yet, look at the note. She clearly states that she is getting the herbs from Frontier and is repackaging. Oops, wrong photo. This is another one. See photo below. Hard to see on smartphone.
