Becky Roberts reviewed The Tree Leaves' Oracle —
August 4 at 2:56pm ·

Horrible. I bought some herbs from a store while visiting my friends like them so much that I went online and tried to buy some more on Amazon. I contacted the seller and they were stale and poor quality. I contacted the seller at the same store and they told me that I had bought from the wrong person. These people lie about the listings on Amazon. So, I will be buying directly from the real maker and seller from now on.
